

Why should you come to the Faculty of Medicine & Dentistry to complete your China Scholarship Council (CSC) funded PhD or postdoctoral fellowship (PDF)?

- Highly ranked medical school
- World class infrastructure
- State-of-the-art core research facilities
- Excellent researchers in diverse research areas from fundamental discovery science to translational and applied research in any most area of health

How to apply:

Make sure you can meet the University requirements for admission (<https://www.ualberta.ca/graduate-studies/prospective-students/international-admissions-protocol/international-academic-requirements> including for English (<https://www.ualberta.ca/graduate-studies/prospective-students/international-admissions-protocol/english-language-proficiency>))

- Go to the list of researchers who currently have positions available at <https://intlgradpositions.med.ualberta.ca/>
- Identify a small number of faculty members and contact them by e-mail and
 - state your desire to apply for a CSC PhD or PDF award
 - explain why you are interested in doing research with them
 - provide them with a current CV
- Most faculty members will request a video conferencing interview. Be prepared to:
 - describe your previous research experience
 - explain why you are interested in the research
 - ask questions about the research
 - inquire about the entrance requirements of the graduate program, including English examination requirements (if you are applying to the PhD program)
- Once you have found a faculty member who is willing to be a supervisor:
 - PDFs can apply for the CSC applications with their confirmed supervisor
 - PhD students need to apply to the graduate program to which the supervisor belongs
 - After receiving a letter from the Faculty of Graduate Studies & Research offering admission or provisional admission into the program, the CSC PhD application can be completed

Note: The Faculty of Graduate Studies is currently allowing Duolingo scores to be submitted to meet their language requirement, however some programs may not accept these scores.
